Tips

- **Use shortcuts where possible!** Bookmark <https://clackamas.zoom.us/> to conveniently access our CCC Zoom site and Zoom Support (at the bottom of the page).
- **Use annotation to grab and direct attention!** The Zoom draw menu provides a lot of options for drawing, highlighting, making lines and arrows, and even blocking out areas. Use the spotlight menu to access the arrow pointer, and the red spotlight tool.
- **Use frequent and varied interaction!** Use all of the Zoom tools at your disposal so that the interaction avoids becoming mundane. Zoom Polling is an obvious option, but also consider asking them to type in a response to a question or comment using Q&A or chat. Hand raising is also a quick and easy way to interact with your class.
- **Watch the one-minute video introductions to learn more!** All the resources are available via the Zoom Help Center: <https://support.zoom.us/hc/en-us>
